We have a fantastic reputation with residents, regulators and the local community for maintaining standards of clinical and care excellence. The facility offers the highest standards of care and quality of life to older adults with a variety of nursing, residential and palliative care needs.

It is a really exciting time to be joining the Trust. Our focus is firmly on an exciting transition towards a brand-new care hub which is under construction and is due to be completed by next spring. This is supported by our new model of care supporting people to live at home for longer that will include us providing nursing services in our local community.

You will be part of a multi-professional team of nurses, therapists and carers and you will mentor carers and student nurses.

You will need to have excellent clinical skills and knowledge with proven experience of people management together with strong communication and leadership skills. You should be customer focused with a sensitivity towards the needs of older people with a thorough understanding of person centred care.
